

### Why Study at RCIT in Vancouver?

- Qualified Instructors and Microsoft Certified Trainers with industry experience.
- Great location: main campus is close to downtown Vancouver, another one is close to Surrey Central Skytrain Station.
- Wireless network throughout the campus.
- It is widely known that Vancouver has been voted the best or second best city to live in and to study for the last ten years (*according to UN & other sources*)
- Job placement assistance available.
- Authorized Microsoft IT Academy offering approved textbooks and courses from Microsoft, CompTIA, and Cisco.
- We are a Prometric Testing Centre. IT Certification exams may be taken right on campus.
- Small class size ensures personalized attention to each individual student.
- International students may live with Canadian homestay families and this will immerse the students into an English-speaking environment and culture.
- The campus has a friendly administration staff and faculty.
- A member of BC Career Colleges Association, American Hotel & Lodging Association, Microsoft IT Academy, Vancouver Board of Trade and the Better Business Bureau.

Royal Canadian Institute of Technology is an Authorized Microsoft IT Academy and Prometric Testing Centre and can be your best choice for building skills and confidence in IT for the years ahead.

### Why IT Training?

- Growing demand for qualified IT professionals- "Help Wanted: 9000 for Tech Industry in Vancouver" as reported in the Vancouver Sun.
- The IT skills shortage is a huge problem in today's IT Industry.
- IT training and certification give an employee a critical competitive edge in the field and secure highly paid jobs.
- Learn more about the IT industry in depth to help you move ahead faster in your career.
- You will be trained not only for today but for tomorrow too. Invest in your own future.

### Accreditation:

Royal Canadian Institute of Technology is a private post-secondary institution fully registered and accredited with the Private Career Training Institutions Agency (PCTIA), Ministry of Advanced Education, Government of British Columbia.

Accreditation means that the institution maintains high standards and has a solid reputation in the educational industry in British Columbia, Canada. Domestic students may be eligible for student loans and grants if they satisfy the necessary requirements. Funding may also be available to qualified domestic students through Employment Insurance (EI) and Human Resources and Social Development Canada (HRSDC).

## ROYAL CANADIAN INSTITUTE OF TECHNOLOGY

## JOIN OUR POST DIPLOMA PROGRAM IN INFORMATION TECHNOLOGY/ INFORMATION SYSTEMS

(TWO-YEAR POST DIPLOMA PROGRAM WITH AN 11-MONTH PAID CO-OP COMPONENT)

The two-year Post Diploma Program in Information Technology/Information Systems provides basic concepts and a broad technical understanding of current and evolving technologies in the IT field with an emphasis on three specializations: Systems Administration/Network Administration, Software Development and Database Design and Administration. The program prepares students for positions in the IT industry and leads students to pursue today's most respected IT Certifications:

### First Year

- CompTIA: A+, Network+, Security+, Linux+
- Windows Vista/Windows 7, MCTS, MCP, Windows Server 2008 Active Directory, Windows Server 2008 Network Infrastructure Configuration

### Second Year

- Planning and Administering Windows Server 2008 Servers
- Microsoft Exchange Server 2007
- Microsoft Office SharePoint Server 2007 (MOSS 2007 certification)
- Cisco Certified Network Associate (CCNA)
- Certified Wireless Network Administrator (CWNA)
- Microsoft Certified IT Professional (MCITP: Server certification).
- Project management: Project+, Certified Associate in Project Management (CAPM).

## Program Description:

The Post Diploma Program in Information Technology/Information Systems will prepare students for positions in the IT industry. You will learn from basic to more sophisticated concepts dealing with PC hardware, software, networking, wireless, voice and data, routers and switches, and Internet security. Students will learn how to design, plan and administer, implement and maintain Windows Server 2008, Windows Server 2008 Network Infrastructure Server, Linux and Wireless Network.

This post-graduate program has an 11-month paid Co-op and is an intensive practically-oriented taught program.

Upon the completion of the program, or even during the program, students will be prepared and will have an option for taking industry certification exams in A+, Network+, Security+, Linux+, Project+, CCNA, MOSS 2007, Microsoft Exchange Server 2007, MCITP, MCSA, CWNA, and CAPM on our campus.

Royal Canadian Institute of Technology is an Authorized Microsoft IT Academy and Prometric Testing Centre and can be your best choice for building skills and confidence in IT for the years ahead.

## Career Opportunities:

Upon successful completion, the graduates will be prepared to begin a career as a Computer Technician, Network Technician, Network Administrator, Network Analyst, Technical Support Systems Specialist, Network Security Professional, System Administrator, System Integrator, Network Engineer, Network Architect, Network Designer, Network Consultant, Wireless Administrator, Software Developer, Database Administrator or

IT Project Manager.

## Co-op Work Experience:

Co-op education is part of the two-year Post Diploma Program in Information Technology/Information Systems. Participation in the Co-op Program is mandatory. It is committed to the development of capable, creative professionals ready to embark on action-oriented, multi-dimensional careers in private and public IT businesses. Practical work experience in a related field is undertaken to enhance academic studies and develop professional and personal skills. This 6 month paid Co-op program in the first year and 5 month paid Co-op Program in the second year will provide students with the opportunity to apply their knowledge and skills acquired in-class in a real world of IT business in Canada.

## The Co-op Program includes:

- Co-op work permit.
- Placement process (recruitment and placement).
- Preparation assistance for all participating students (creating resume, etc.).
- Student Co-op reports and employer evaluation (monitoring and evaluation).

Students in a Co-op program are not required to pay any additional Co-op fees. RCIT will take care of the costs associated with the administration of work placements.

## Benefits of the RCIT Co-op Program:

The benefits of cooperative education are many. It will allow students to apply concepts learned in the classroom to a real world experience, thus enhancing academic understanding. It will enable students to better integrate the concepts that they continue to learn in the second year of the program from having experienced the work situation first-hand. It will also provide valuable job search skills and increase a student's networking opportunities. It has been found that many cooperative education work term placements lead to permanent positions after graduation from our Post Diploma Program in Information Technology/Information Systems.
